

Hightower®

Prism Modular Collection

A striking departure from typical modular seating, Prism encourages creativity and collaboration through unique geometric components. From a small ottoman to a vast seating composition, the uses for Prism are as diverse as the people who use it.

What a Gem

The multi-faceted sides of Prism let you have fun coming up with the perfect configuration for your space. Create a wrap-around collaboration zone, a winding bench waiting area, or simply a cluster of hexagonal ottomans for a fun and flexible touch-down space.

Show Your Colors

Bring on the personality with coordinating and contrasting fabric options within Prism. Whether a space calls for a moody monotone palette or a playful rainbow of hues, have fun when specifying different materials throughout each piece.

On the Surface

Every seating area needs a place to set that morning cup of coffee and Prism ensures a durable surface is always at the ready. Seamlessly integrate a laminate tabletop into the benching system, or add a pivot table to turn your lounge space into an instant workspace.

You’ve Got the Power

Nothing halts productivity like a dead battery. Keep the momentum going with optional retractable power units, available in all models except Honeycomb Ottomans and Tables.
