

Hightower™

FourUs® Seating Collection

With the increased adoption of the open concept workspace comes the need to create spaces built for seclusion, privacy, and focused work. The FourUs® Seating Collection provides a comfortable alcove that creates visual and audible separation while contributing to an inviting aesthetic. Available in a wide range of options and as a sofa or booth, FourUs® is truly for any environment.

A Seating Sanctuary

An ingenious modular zoning concept, the FourUs® Booth creates a room with opportunities. The high-back booth provides privacy, forming a retreat from public space. Cozy acoustics make the ideal semi-private solution for focus, a coffee break, informal meetings or even some moments of solitude.

Right Size, Right Shape

From a simple settee to an all-encompassing booth with table, FourUs® has options to create a dwelling space in any environment. Choose from multiple height, length, and overhead options, as well as two base types. Contrasting upholstery may also be specified to really bring these pieces to life.

Ready to Pivot

Sometimes, it's the thoughtful little details that create an outstanding product. In the case of the FourUs® Booth, the optional Pivot Table is designed to move easily from one side to the other, allowing users to take a seat without having to uncomfortably slide into place.

A Haven in the Making

Give people the opportunity to escape a bustling public space by incorporating the FourUs® Seating Collection. A functional and beautiful alternative to a typical sofa, these models bring comfort to a new level by helping users tune out the noise.
