## Happy Seating Collection

Iconic and enduring, the Happy Seating Collection has been a mainstay in the Hightower assortment since its launch. The curve of the seat and arms gives the impression of a smile, and once you take a seat in one of the Happy pieces, you'll immediately know how it got its name.

### **Comfort, Style, Bliss**

Every curve and line of Happy is designed to create a piece that will not only draw a user in, but encourage them to stay. The molded foam seat is generous and comfortable, and the curved arms and back provide structured support. No matter which model suits your space, its patrons will be happy to stay awhile.

## Beauty and Brawn

The elegance of high-design meets the function of contract grade in the Happy Collection. Made in the U.S. and utilizing high-resilience foam, the Happy Collection is built to last and to live up to the rigors of commercial use. You can feel confident that these pieces will be a long-lasting and timeless addition to your project.
