

Hightower®

FourReal®741 Flake

Designed to make human connections more, well, human. Our FourReal®741 Flake Diamond and Rectangular tables create a natural, eye-level gathering point for 4 to 10 people. The organic shape of the FourReal®741 Flake Diamond allows more comfortable, roomier seating than many traditionally straight angle conference tables. Integrated casters make these tables easily fold-able by one person. Finish options include multiple variations for both base and surface.
